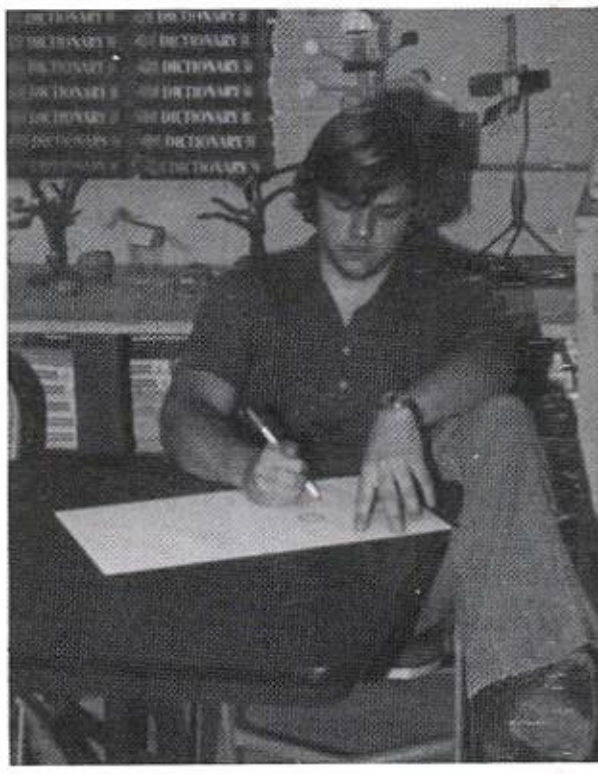
Learning Is More



If we, today's youth, were not so agile and innocent we would be driven stark raving MAD by school. But being the funloving creatures that we are, we survive. Not only do we survive school, we seem to thrive on it.

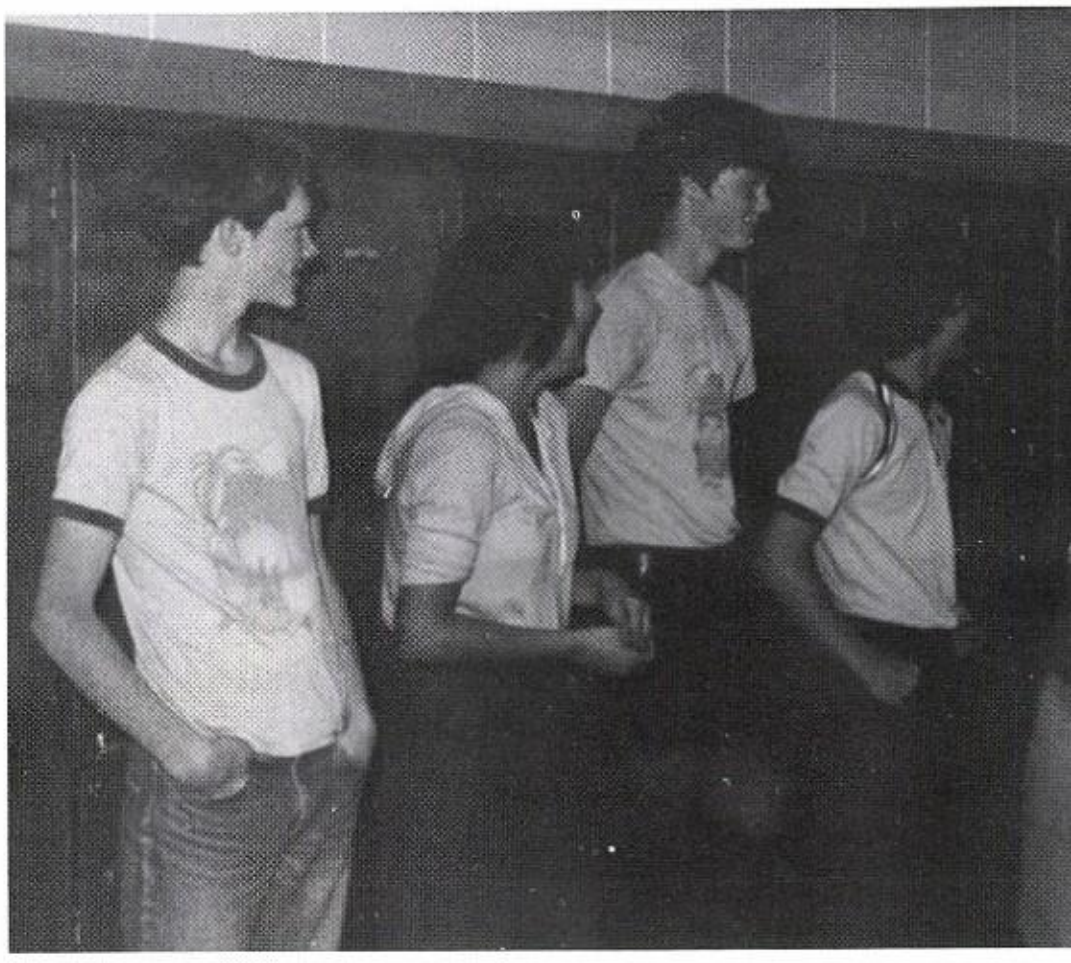
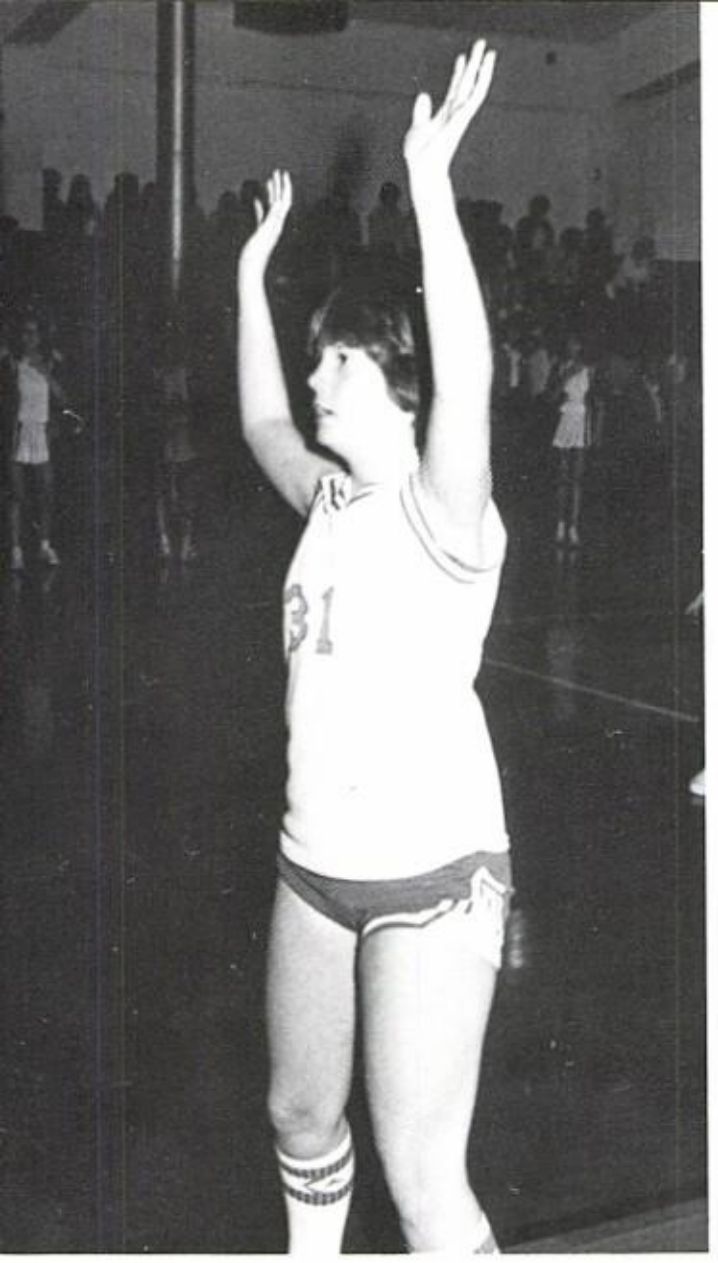
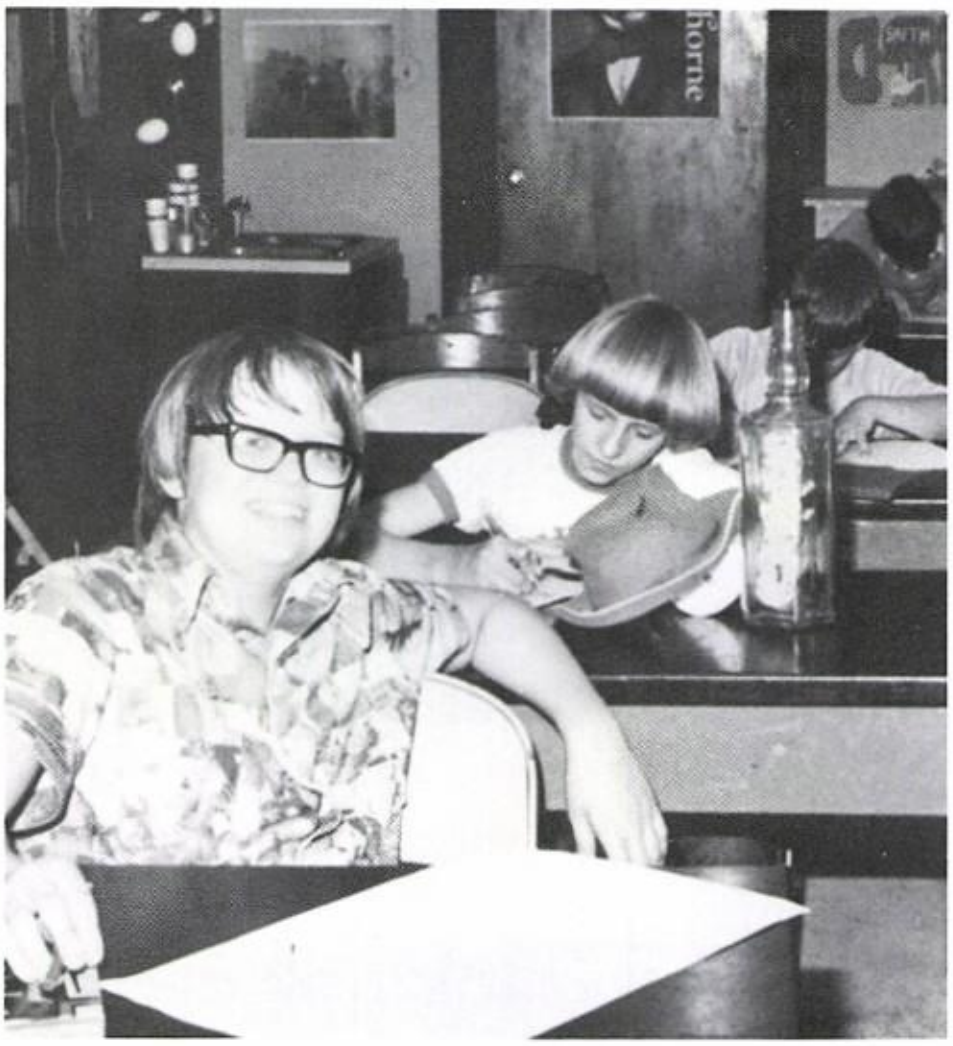
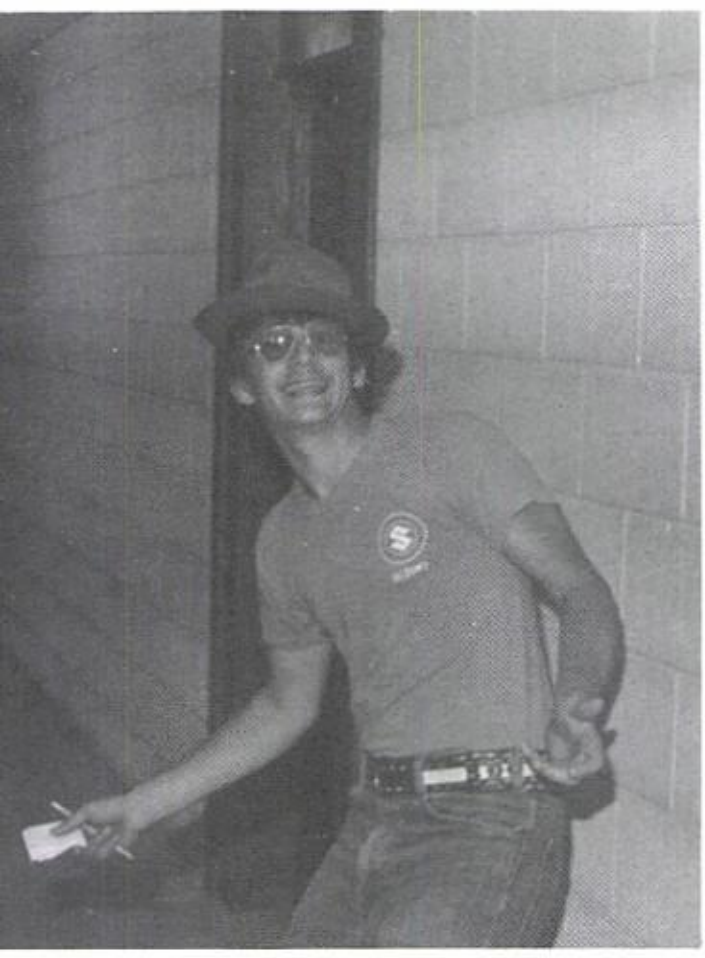
Than Just Classrooms



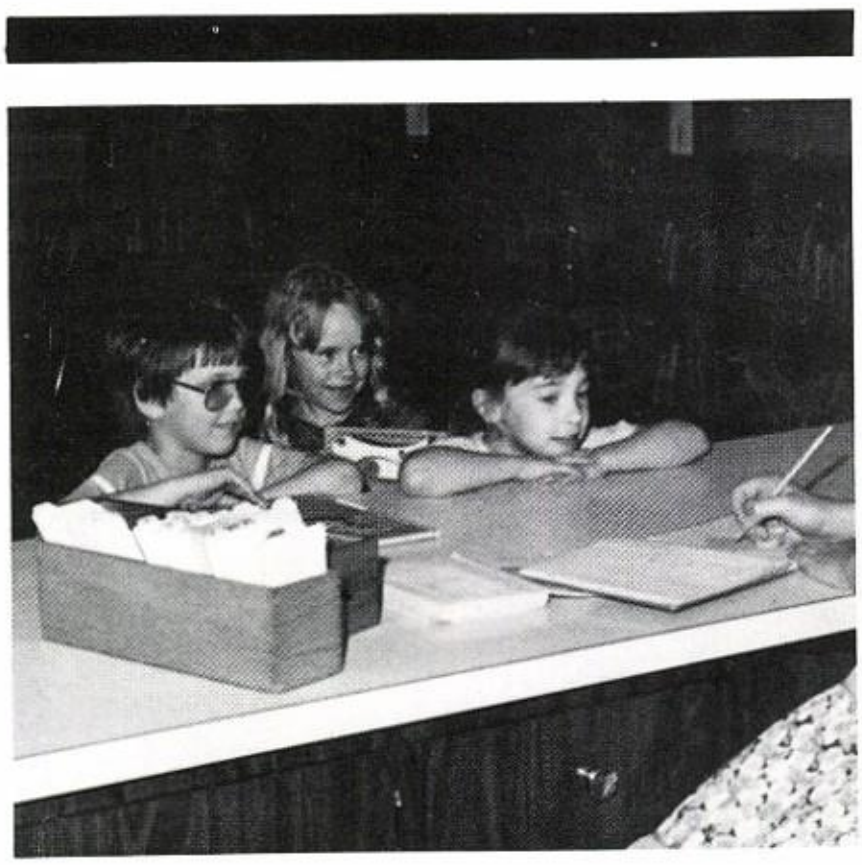


I will multiply my values and actions a hundredfold, setting goals for days, weeks, months, years. My goals will never be too high. I will aim for the moon.

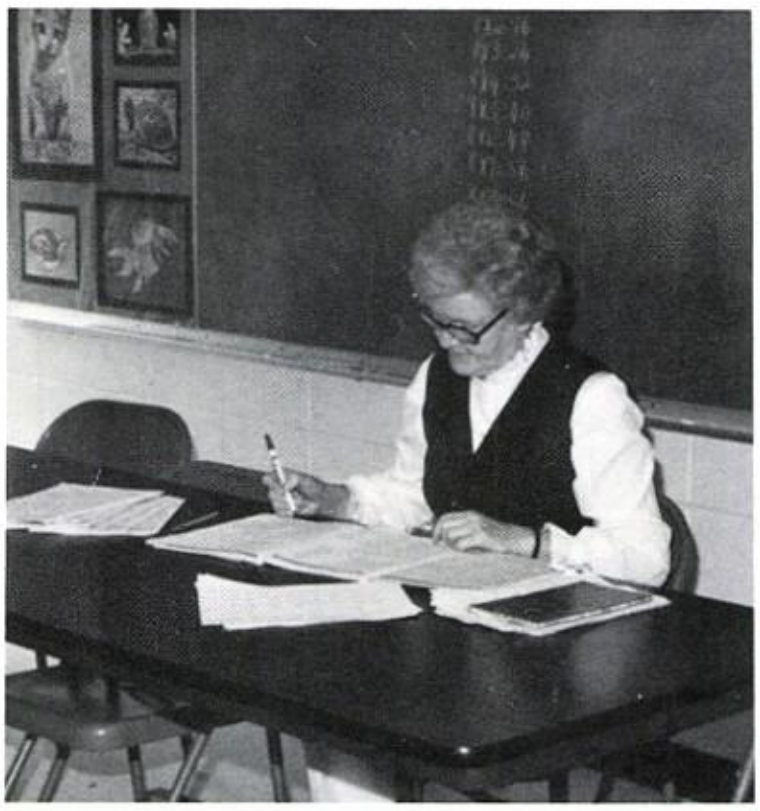




And Books



Classes are only a small portion of the over-all picture. Can you imagine just getting up, going straight to classes, and then going straight home? Perish the thought! ! !



"Goals and aspirations can only be accomplished through getting involved and a lot of hard work."

It will be hard to say goodbye to a
million dreams,
a thousand promises,
and friends,
Like reading a good book,
I will be reluctant to finish the last
page.
But the memories of friends are
written well within my life;
They are things that can't be
taken from me.
I have set aside a book for them
on my private shelf,
An adventure in the volumes
of life.

In Memoriam

November 7, 1917 - October 26, 1978

Mrs. Velma Hipp began her fourteenth year as a cook at West Side this fall. During those years, many students, teachers, and others from various walks of life became very familiar with her sweet smile and kind disposition. She is very fondly remembered and will continue to be so for many years to come.

This small memorium, we hope, will help to show just some of the sadness we have felt at the loss of a very special lady.
